Keep Kids Safe Materials

The **Keep Kids Safe** materials were developed for the California Chapter 4, American Academy of Pediatrics Injury and Violence Prevention Program (IVPP). The IVPP enhances pediatric injury prevention counseling in pediatric offices, and other venues where children receive health education and other services. The materials have been reviewed by injury prevention experts for message accuracy and have been focus-tested by parents for ease of understanding and likeability.

Mail order form and donation to:

Keeping Your Child Safe Parent Brochure

The **Keeping Your Child Safe** 8.5”x 11”, four page brochures are age and developmentally appropriate materials for parents and designed to be used for anticipatory injury prevention guidance in health, education, and child care settings. The brochures are available in English, Spanish, and Vietnamese.

Health Care Setting

- Each brochure should be provided to parents at the appropriate health supervision visit.
- Suggestions for how to provide these materials to patients:
 - Receptionist gives materials at sign-in
 - Nurse gives materials at time of exam
 - Pediatrician gives materials at time of exam

Educational Setting

- Age appropriate materials can be provided to parents and can be used in parent education classes.
- Suggested educational settings include:
 - Parent classes
 - Pre-schools
 - Child care settings

Brochures

- “Keeping Your Baby Safe: 0-6 Months”
- “Keeping Your Baby Safe: 6-12 Months”
- “Keeping Your Child Safe: 1 – 2 Years”
- “Keeping Your Child Safe: 3, 4 and 5 Years”
- “Preparing for School”- Safety for Your Five Year Old”*

*currently not available in Vietnamese

Keeping Children Safe DVD

The **Keeping Children Safe** DVD is a comprehensive injury prevention tool designed to help educate parents about the most frequent causes of injury to children birth to five years, and prevention strategies.

The DVD consists of 26 “vignettes” which demonstrate a “wrong” and “right” way to protect a child from injury. The vignettes are categorized within a cartoon “home”, with danger areas displayed in different rooms in the house, as well as in areas around the home and in cars. Selecting the rooms or areas will give you a list of vignettes to play.

The DVD also has the option to play the video in a continuous loop format. It can be placed in the waiting room or education room. It can also provide the opportunity for a more interactive and targeted education session.

Parents can be given copies of the DVD for home viewing.

The DVD is available in English, Spanish, and Vietnamese.

Pool Safety & Child Safety Seat Growth Chart Poster and Take Home Sheet

The **Pool Safety**, 17” x 22” laminated poster is designed as an in-office educational tool. Place the poster where you or your staff can refer to it when counseling a parent on pool safety.

Alternative settings and use of the **Pool Safety** poster include:

- **Businesses**
- **Community Pools**
- **Apartment Complex Pools**
- **Child Care Facilities**

The **Child Safety Seat Growth Chart**, 17” x 22” laminated poster is designed as an in-office educational tool. Place the poster where you or your staff can refer to it when counseling a parent on child passenger safety.

POSTER

Examples of locations are:

- **On the wall adjacent to the weigh stations**
- **In each exam room**
- **At the reception desk**

TEAR OFF SHEET

- 50 sheets to a pad
- Available in English/Spanish— English/Vietnamese
- Circle the column title that provides the appropriate child safety seat information and give the sheet to the parent to take home.
